Thank you for your support!

WHAT IS A STROKE?

A stroke occurs when oxygen-rich blood flow to the brain is interrupted by a broken blood vessel or blood clot. Stroke is the 5th leading cause of death in the US. On average every 40 seconds someone in the US has a stroke.

Approximately 800,000 people will be affected each year.

Currently there are over 7 million stroke survivors. Strokes can happen to anyone at any age.

INCIDENCE OF STROKE

Stroke is the fifth leading cause of death in the U.S. and a leading cause of adult disability.

2X more women die from stroke each year compared to breast cancer.

There was a spike of 44% in the number of young Americans hospitalized due to stroke over the last decade. Stroke causes the death of one in four Hispanic males and one in three Hispanic women.

Globally stroke affects 17 million people, of these nearly 6 million die and another 5 million are disabled.

Twice as many African Americans have strokes than Caucasians.

Where Your Money is Going

Dr. Nandi Charities uses Stroke funds to make a significant impact on the health disparities in Metro Detroit. We focus on those receiving little education about prevention and treatment of stroke either because of a lack of access to services or lack of health-related knowledge. We also increase access to early treatment of stroke, to decrease the burden of disability that this disease can cause. Financial Contribution is also made to The National Stroke Foundation

Dr. Nandi Charities' Mission

Dr. Nandi's mission is to ensure excellence in global healthcare by providing funding for the medical needs of individuals and education initiatives for disease education, prevention, and treatment. Dr. Nandi Charities also aims to train caregivers by offering scholarships to deserving students seeking a career in healthcare.

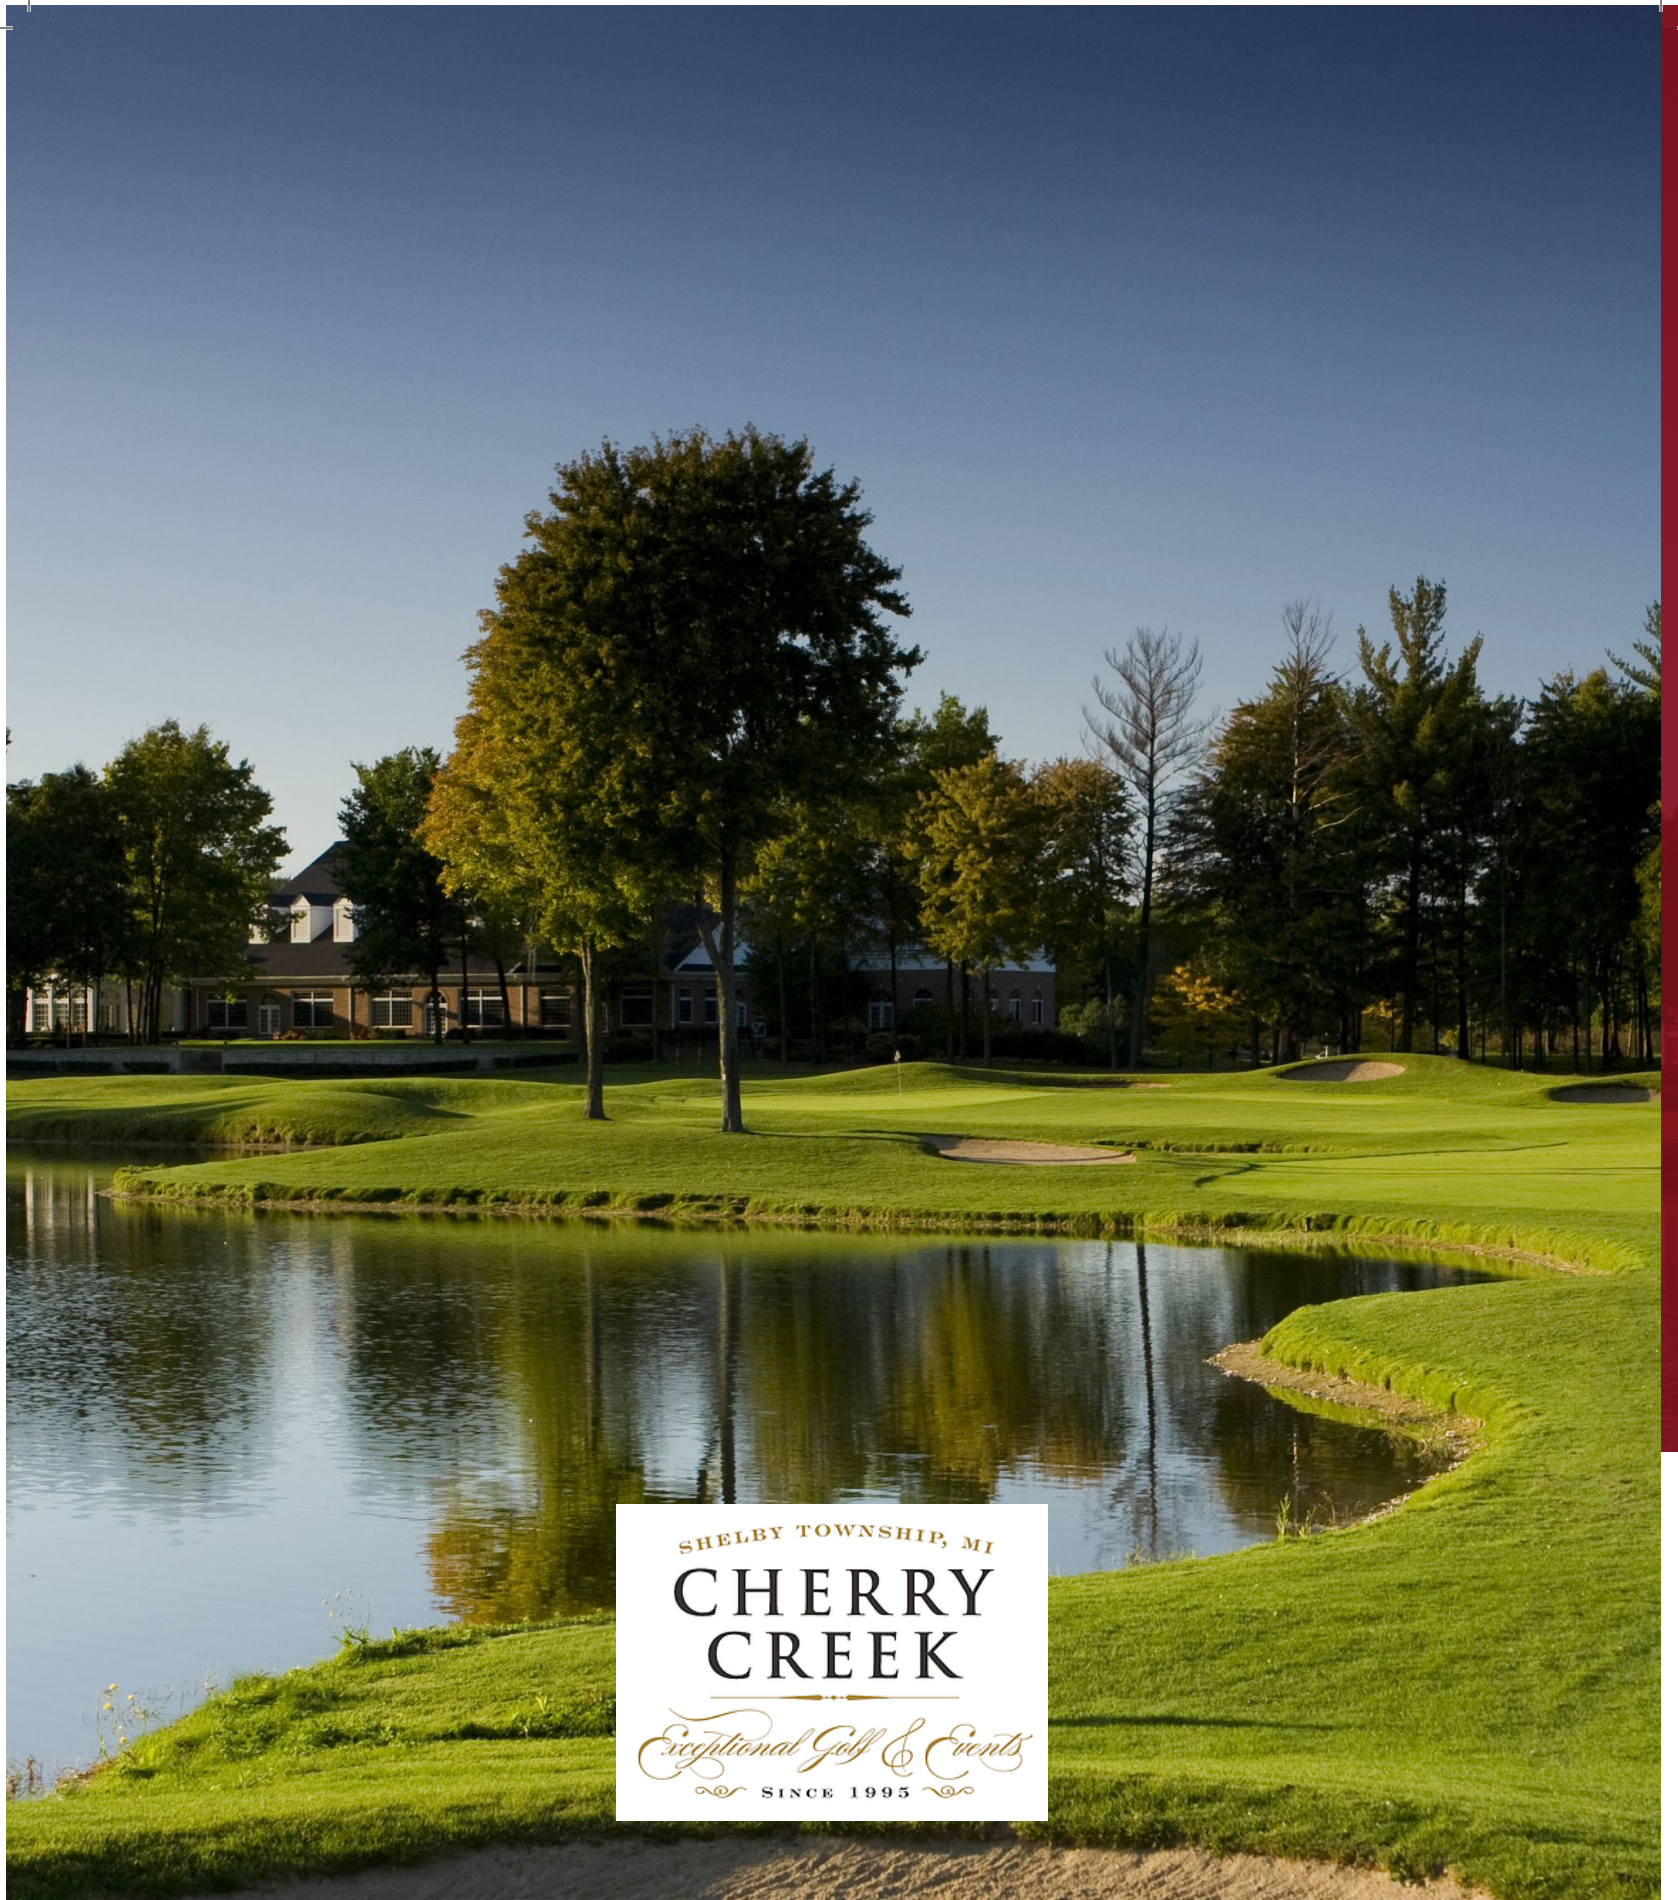

Dr. Nandi Charities Goals

-  Provide funding for the indigent to provide for health care and medical needs.
-  Health education for the public for prevention and treatment of disease.
-  Provide education and resources for fitness and nutrition to the public.
-  Provide scholarships to needy students who are pursuing education for healthcare delivery.

Dr. Nandi's father suffered from a devastating stroke in 2008 and was never the same again. Sadly, we lost him on July 18, 2017, after a near ten-year fight.

Dr. Uma Nandi was a brilliant polymer chemist, father, husband and son. Dr. Nandi held several patents for his pioneering work. He was also an amazing cook and singer, a true Renaissance man! He had a devastating stroke in 2008 which changed his life forever.

Without the love and advocacy of his family, and the groundbreaking treatment facilities available to him, Uma would not have lived to see the birth of his grandsons and the love of his community.

I would like to personally thank all of you for supporting the 1st Dr. Uma Nandi Stroke Fore Stroke Charity Golf Outing. Your support will help Dr. Nandi Charities and The National Stroke Association to make a significant impact on the health disparities in Metro Detroit. We focus on those receiving inadequate prevention and treatment of stroke either because of a lack of access to services or lack of health-related knowledge. We also wish to increase access to early treatment of stroke and to decrease the burden of disability that this disease can cause. I sincerely appreciate all your efforts in the fight against this devastating disease.

*Thanks,
Partha*
